

Computers in Business

Standard 7

Students will evaluate the performance of their business venture.

Evaluating the Business
Standard 0000-07
Objective 0701

Overview:

Students will evaluate different aspects of their business such as time, profit, business organization, performance, team work, participation, assignment completion, etc.

Activities:

- Students will complete the evaluation worksheet with respect to their business
- Students could keep a daily journal of what they did each day with respect to starting their business and running their business.
- The teacher will make sure the students have completed all the standards and objectives given in the performance assessment of the course.
